Application Checklist:

The Applicant must submit the following:

Preliminary Site Plan

Copies of a site plan or plans drawn to a minimum of 1:1000 scale clearly indicating; where applicable:

- legal description of parcel(s) to be subdivided;
- the dimensions of the parcel(s) to be subdivided with boundaries outlined in red;
- arrangement of parcels and streets which would be created by the subdivision, including the widths of the proposed streets and the approximate dimensions and area of each proposed parcel complete with lot numbers;
- the relationship of the proposed subdivision to adjacent and existing streets and parcels and the connection of the proposed streets thereto;
- the existing and proposed uses of the parcel(s) to be subdivided;
- existing buildings and/or structures located and identified, and illustrating the dimensions and the relationship of same to existing and proposed property lines;
- the approximate location of any buildings to be demolished upon approval of the subdivision;
- existing property lines and streets to be eliminated by the proposed subdivision;
- utility and other existing rights-of-way located and identified, including floodplain areas where applicable;
- existing topography based upon true datum with contour lines at no greater than one (1) metre intervals;
- existing streams, watercourses, natural drainage channels and other pertinent topographic features, including all large or desirable trees on or near proposed roadways;
- the location of all existing roads, pipelines and utilities;
- the location of existing septic tank and septic tank drainage fields where applicable;
- the location of any wells within 30 metres of the parcel(s) to be subdivided if the proposed lots are to be serviced by septic systems;
- the location of any existing drainage facilities, such as storm sewers, tile drains or culverts, whether in use or not;
- the proposed water and sewer main extensions to service the subdivision;
- the proposed road grades where steep and uneven terrain exists; and
- a scale, north arrow and any other plan identification that shall be considered relevant.

Other

Approving officer may also require:

- any elevations, cross-sections or detail drawings which may be relevant
- copies of any previous studies or reports made on the subject property relating to its present condition and suitability for the proposed use/development, e.g., geotechnical reports, site contamination and remediation studies.
- Under the District of Tumbler Ridge Subdivision and Development Servicing Bylaw, a geotechnical overview, topographic mapping and development servicing and phasing analysis, if the proposed subdivision meets the outlined criteria.

General Overview of Process:
